

Class: 4<sup>th</sup> Date: 14<sup>th</sup> May, 2020

Subject: English

Today's topic,

1. Read Page 2 and 3 of lesson 1(Koji and the Cats) from the book Weavers.
2. Watch the video.
3. Do question B in book.

## 1 Koji and the Cats

**thudding**  
sound made  
by a heavy  
object hitting  
something

**howling**  
long, loud  
cry made by  
animals

**eerie**  
strange and  
scary

**motionless**  
without  
moving

**dreadful**  
very bad

Koji was awakened by the sounds of banging, crashing, **thudding**, and **howling**. Then suddenly there was silence. Frightened by the terrible sounds and the **eerie** silence, he lay **motionless** all night long.

At dawn, Koji slid open the cupboard door very slowly and stepped out. He was shocked to see a dead rat on the floor. It was almost the size of a rhinoceros!

He looked around fearfully. To his surprise, he saw that all the cats that he had drawn at night had bloodstains on their mouths!

Koji realized that the cats had magically got together and killed the monster-rat.

Soon the villagers who lived around the temple gathered and saw the **dreadful** scene.

The crowd of people exclaimed joyfully, 'You're a fearless boy! You're a hero!'

An old woman explained, 'Son, you have killed the monster-rat that even the bravest of our men couldn't kill.'

सबसे बहादुर

By the time Koji reached home, his family had already heard about the wonderful task he had done.

His father said, 'Draw and paint as much as you like! You're born to be an artist.'

Koji drew many wonderful pictures, and he grew up to be a famous painter in Japan.

**Class-4<sup>th</sup> Subject- S.St.**

**Chapter-5 (India: The Great Indian Desert)**

**Topic: Occupations, Houses, lifestyles and major cities of Rajasthan.**

## **Prime and Composite Numbers**

**Prime Numbers:** A number having exactly two different factors, namely 1 and itself is called a prime number.

**For example.** Each of the following numbers is a prime number.

**2,3,5,7,11,13 17,19,23,29,31,37.**

**Composite Numbers:** A number having more than two different factors is called a composite number.

**For example,** Each of the following numbers is a composite number.

**4,6,8,9,12,14,15,16,18,20,21,22**

**Note 1.** Clearly, 1 has only one factor, namely 1 and itself.

**So.** 1 is neither prime nor composite.

**Note 2.** The smallest prime number is 2 and it is the only even prime number.

**Q. 1** Which of the following numbers are prime numbers? Write in the note book.

**1, 13, 21, 25, 47, 19, 36, 43, 60,17**

**Q. 2** Which of the following numbers are composite numbers?

**1, 24, 37, 51, 16, 23, 68, 38, 54, 31**

**Q. 3** Write all primer numbers between 1 and 40.

**Class: 4<sup>th</sup> Subject: G.K.**

**Q.1 Who is the founder of Microsoft?**

**Ans. Bill Gates.**
