Subject: English

Today's Topic

Lesson -1 Carry the Carrier

To read lesson 1, "Carry the Carrier" page 3 and watch the video.

This cost him ten rupees—**Segregate** the Green and the Grey. Make good use of both.

अलग अलग करना

Gunjan looked confused. His mother smiled at his confusion.

‘Look it up online,’ was her suggestion.

समझना

And with a little help online, Gunjan was quick to **decode** the meaning. ‘Separate the **biodegradable** waste and the non-biodegradable waste. We must reuse or recycle the non-biodegradable waste.’

‘Yes, that’s what it means.’

‘I suppose we should get two buckets—not plastic!—for separating the waste and check what belongs where,’ said Gunjan.

‘Not two but four,’ corrected Gunjan’s mother. ‘One for biodegradable waste like vegetable peels. Another for waste we can reuse like paper bags.’

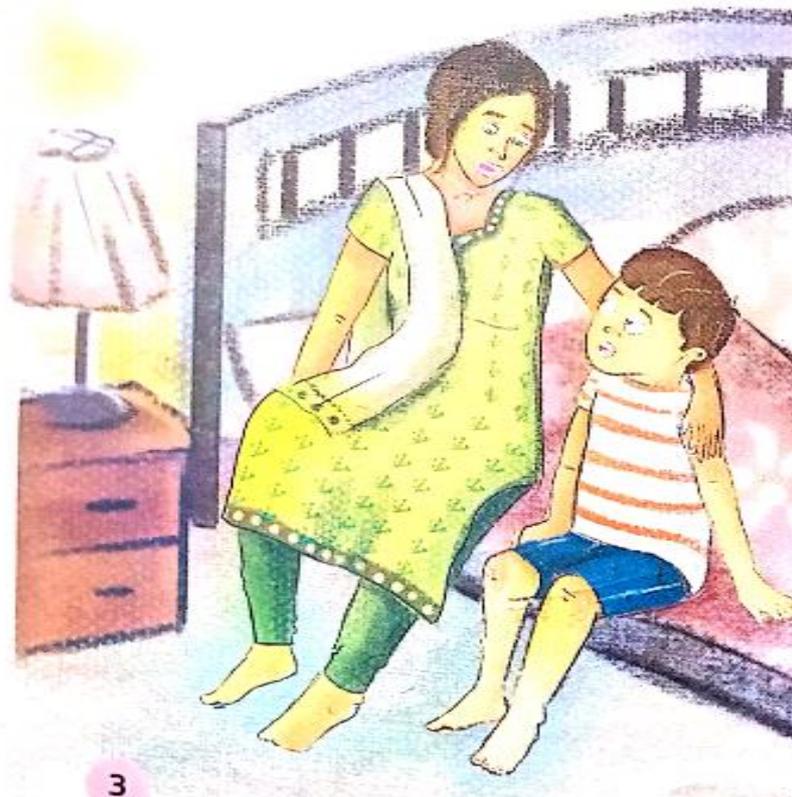

A third for those that we need to give away for recycling like batteries. And the fourth for things that cannot be made into compost or reused or recycled.'

'Why haven't we been doing this?' asked Gunjan.

'Honestly, because we've been lazy. We'll begin tomorrow,' promised his mother.

'I know what advice I'd give dad,' said Gunjan mischievously. '*All that is new is not the best.*

A new phone every year is not the best use of money. And that advice will cost him nothing!'

Class: 5th

Subject: Science

Chapter- Growing plants

Q. 1 Name the different part of a seed. Support your answer with a diagram.

Ans- The different parts of seeds are seed coat, embryo, seed leaves or cotyledons.

Q. 2 What is dispersal of seeds?

Ans- The process of scattering of seeds away from the mother plant is called dispersal of seeds.

Q. 3 Why is dispersal of seeds necessary?

Ans- Dispersal of seeds is necessary because if seeds fall near the mother plant, they would not get enough light, water and space to grow.

Word **Meaning**

Germination- अंकुरण

Organisms- जीव

Destroyed- नष्ट हो गए

Embryo- भ्रूण

Soaking- भिगोना

*पाठ-३ मेहनत का फल के प्र०./उत्तर लिखो व याद करो।

पाठ- 3 मेहनत का फल Date
Page

प्रश्न-4. पानी पीते समय अनुराग का ध्यान कहाँ गया और उसने क्या देखा ?
उत्तर- पानी पीते समय अनुराग का ध्यान कुएँ के पत्थरों पर गया और उसने पत्थरों पर पड़े गहरे निशानों को देखा।

प्रश्न-5. अनुराग घर की तरफ क्यों लौट गया ?
उत्तर- अनुराग घर की तरफ इसलिए लौट गया क्योंकि उसे यह बोध हो गया था कि यदि रस्सी के बार-बार रगड़ खाने से पत्थर पर निशान पड़ सकते हैं तो बार-बार याद करने से उसे भी पाठ याद हो सकता है।

प्रश्न-6. इस कहानी से क्या शिक्षा मिलती है ?
उत्तर- इस कहानी से हमें यह शिक्षा मिलती है कि लगन और मेहनत से असंभव काम भी संभव हो जाता है।

Prime and Composite Numbers

Prime Numbers: A number having exactly two different factors, namely 1 and itself is called a prime number.

For example. Each of the following numbers is a prime number.

2,3,5,7,11,13 17,19,23,29,31,37.

Composite Numbers: A number having more than two different factors is called a composite number.

For example, Each of the following numbers is a composite number.

4,6,8,9,12,14,15,16,18,20,21,22

Note 1. Clearly, 1 has only one factor, namely 1 and itself.

So. 1 is neither prime nor composite.

Note 2. The smallest prime number is 2 and it is the only even prime number.

Q. 1 Which of the following numbers are prime numbers? Write in the note book.

1, 11, 21, 57, 67, 19, 63, 83, 89,17

Q. 2 Which of the following numbers are composite numbers?

1, 79, 97, 51, 61, 87, 81, 38, 54, 93

Q. 3 Write all primer numbers between 1 and 50.

Class-5th Subject- S.St.
