## **Class- IV Subject- Maths**

Division of a Fraction by a Fraction

Rule In order to divide a fraction by another fraction, we multiply the dividend by the reciprocal of the divisor.

For example Find  $3/14 \div 2/7$

Solution Reciprocal of  $2/7 = 7/2$

$$3/14 \div 2/7 = 3/14 \times 7/2 = 21/28 = 3/4$$

Division of a fraction by a Whole Number

Rule A fraction  $\div$  A whole number = The fraction  $\times$  Reciprocal of the whole number.

For example Find  $7/11 \div 14$

Solution Reciprocal of 14 = Reciprocal of  $14/1 = 1/14$

$$7/11 \div 14 = 7/11 \div 14/1 = 7/11 \times 1/14 = 7/154 = 1/22$$

Division of a whole number by a Fraction

Rule A whole number  $\div$  A fraction = The whole number  $\times$  Reciprocal of the fraction

For example Find  $42 \div 6/7$

Solution Reciprocal of  $6/7$  is  $7/6$

$$42 \div 6/7 = 42 \times 7/6 = 294/6 = 49$$

Q. 1 Divide find the quotient of the following fractions in note book.

(a)  $5/7 \div 4$  (b)  $5/12 \div 25$  (c)  $4 \div 7/8$  (d)  $21 \div 3/5$

(e)  $1/2 \div 1/10$  (f)  $3/8 \div 2/3$  (g)  $1/5 \div 1/20$  (h)  $7/4 \div 5/12$

Christmas. She prayed for a **miracle** that would help recover her bag. Little did she know her prayer would be answered ... a miracle was on its way.

As Mohammad Mukul Asaduzzaman was finishing his long day, he found a handbag in the backseat of his cab. He didn't know which of his passengers had left it behind.

Mukul's immediate thought was how upset the owner might be. He opened the bag and found it full of precious things like money, jewellery, and passports. He was determined to return the bag to the owner.

He found a card in the bag with a Long Island telephone number and address. He called the number but no one answered the phone. The address given was around 97 kilometres away from New York City. It would take him about two hours to drive there. But he was not ready to give up on his mission yet. He requested a friend to drive him to Long Island. The two set off on a drive on one of the most crowded days on the roads of New York City.

When they reached the address, they found the house locked! They waited for a while, but no one turned up. On a piece of paper, Mukul wrote his mobile phone number and added the words, 'Don't worry, Felicia ... I'll keep it safe.'

He stuck the note on the front door hoping the owner of the house would read it soon.

Tired and not entirely satisfied, the two young men began their return journey. When they were halfway home, Mukul got a call. It was from one of Felicia's relatives!

Delighted to have made contact at last, Mukul and his friend returned to Long Island.

The family was waiting anxiously for them.

Cheerfully, Mukul extended his hands to give the bag to Francesca.

Taking the bag, Francesca exclaimed, 'This is unbelievable!'

Felicia added tearfully, 'Son, you've truly saved our Christmas!'
