Class: 5th Subject: Maths

Roman Numerals

There are seven basic symbols to write any Roman Numeral

Roman Numeral	I	V	X	L	C	D	M
---------------	---	---	---	---	---	---	---

Hindu Arabic Numeral	1	5	10	50	100	500	1000
----------------------	---	---	----	----	-----	-----	------

Rule for forming Roman Numerals

Rule 1 Repetition of a Roman numeral means addition

Caution (1) Only I, X, C and M can be repeated

(2) V, L and D cannot be repeated

(3) No numeral can be repeated more than 3 times

For example $XX = 10+10$ $CCC = 100+100+100$

Rule 2 A smaller numeral written to left of a larger numeral is always added to the larger numeral

For example $VI = 5+1=6$ $XII = 10+1+1= 12$

Rule 3 A smaller numeral written to the left of a larger numeral is always subtracted from the larger numeral

Caution 1 V, L, D are never subtracted

2 I can be subtracted from V, and X only

Writing Roman Numerals for Hindu Arabic

For example $89 = 80+9 = LXXX+IX = LXXXIX$

$$199 = 100 + 90 + 9 = C + XC + IX = CXCIX$$

Write the Roman numeral for each of the following Hindu Arabic numerals in the note book

- (a) 78 (b) 239 (c) 347 (d) 296
 (e) 148 (f) 369 (g) 465 (h) 366

Subject: English “Weavers”

Answers to previous question.

D. Match Monet's actions given in the first column with features of his character that are shown by his actions. (Page- 29)

Sr. No.	Monet's action	Monet's character
1	Painted in all weather	persistent
2	saw the difference that weather and time of the day had on a subject	a keen observer
3	spent two years on a series	patient
4	Painted even with a weak eyesight	devoted to his work
5	changed canvas and paints every hour	organized

Class-5th Subject - S. St.

Chapter - 3

Weather Vs Climate

Watch the video. Learn and write the following questions in notebook.

Q. 10 Mumbai has moderate climate whereas Delhi experiences extreme climate. Give reason for the above given statement.

Ans. *Distance from the sea, altitude, relief, distance from equator and temperature are different for these locations so climate varies.*

Q. 11 Ludhiana and Shimla lies at the same latitude. But Ludhiana is hotter as compared to Shimla. Why?

Ans. *It is due to height and sun rays there that make difference in the temperature.*
