comprehension

A. Recite the poem.

Here's one bird,
Up in the sky,
Add two more,
See the birds fly.

Cow, dog, or frog,
Lark, shark, or monkey,
Add an s to any,
And we get so many.

But when we want
Just one of each,
Just take away the s,
And what's left is less.

B. Now answer these questions.

1. How many birds fly away?

Three fly away.

2. What do we add to get many?

We add an 's' to get many.

3. What do we do when we want just one of each?

We take away the 's'.
