Subject: English "Weavers"

Lesson -2

2 Aerodynamic Mishap

Today's Topic

Read Lesson 2, Aerodynamic Mishap

A. Read these lines from the poem and answer the question. (Write in Fair notebook).

1. '*sketched from either side*'

What was the two sides?

Ans. The two sides are '*right side and left side*' of the plane.

2. '*It really was the best*'

Was the paper plane actually extraordinary? Why does the poet think so?

Ans. Yes, the paper plane was actually extraordinary. The poet thinks so because he had planned it thoroughly to make it right.

3. '*But it's first flight was not to plan*'

(a). Who planned it?

Ans. The poet (the boy) planned it.

(b). What was the plan?

Ans. The plan was to see the plane swoop and dive.

(c) Did the plan work? Why not?

Ans. No, the plan did not work because the plane crashed and hit in the teacher's eye.

B. Answer these questions.

1. Did the plane have a second flight? Which line of the poem tells you that?

Ans. No, the plane did not have a second flight. The line "My plane screwed up, went in the bin," tells us this.

2. What was it that the poet did right?

Ans. The poet made the paper aeroplane right.

A Let's look at the rhyme scheme of the poem. Remember how to work out the rhyming pattern?

- Take the first verse of the poem.

Read the last word of line 1. Call the sound A. Now, read the last word of line 2. Does it rhyme with A in line 1? If yes, mark it A; if not, mark it B. What about line 3? Does the last word rhyme with A or B? If not, mark it C. What about line 4? Would you mark it A, B, or C? Or should it be D? What is the rhyming pattern you get for this verse?

- Now mark the rhyme pattern for the other verses in the same manner.

- List all the end-of-line rhyming pairs.

 - आप घूमने का आनंद लेंगे और झंडा वहीं छोड़ देंगे।

Class: 5th Subject: Maths

Use of brackets

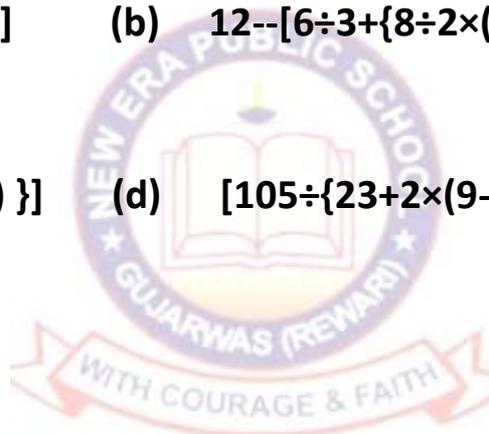

For example Simplify _____

$$\begin{aligned} & [24 \div \{10 - (8 - 6 - 2) \}] \\ & = [24 \div \{10 - (8 - 4) \}] \\ & = [24 \div \{10 - 4\}] \\ & = [24 \div 6] \\ & = 4 \end{aligned}$$

Q1 Simplify the following question in the note book

(a) $50 - [12 + \{16 - (12 \div 3)\}]$ (b) $12 - [6 \div 3 + \{8 \div 2 \times (8 - 6)\}]$

(c) $[40 \div \{19 - 3 \times (6 - 4 - 1)\}]$ (d) $[105 \div \{23 + 2 \times (9 - 5 - 2)\}]$

Class: 5th Subject: G.K.

Q. 1 What is the capital of Maharashtra?

Ans. Mumbai

Q. 2 What is the full form of B.E.E.O.?

Ans. Block Elementary Education Officer

Q. 3 Which reptile changes its colour to protect itself?

Ans. Chameleon

Q. 4 Who treats and cures sick animals?

Ans. Veterinary doctor

Q. 5 Which is the state where the Southernmost tip of India is located?

Ans. Tamil Nadu

Q. 6 What is the number of permanent teeth?

Ans. Thirty-two

#Learn and write in notebook.
