FIBRES AND LEATHER

Cotton clothes are made from cotton fibre. It is obtained from cotton plants. Silk is obtained from silkworm cocoons and is woven into silk cloth. Sheep's fur is used to make woollen clothes. Cotton, silk and wool are called **natural fibres**.

Synthetic fibres are manufactured artificially. They are not obtained from plants or animals. For example, polyester and nylon.

Silkworm

Synthetic fibres

Leather

Leather is not a fibre as it is not woven from threads. It is made of the thick skin of dead animals. It is used to make jackets, belts and shoes.

Uniform

The clothes worn by people belonging to different occupations are called **uniforms**.

Doctors and nurses wear white coats over their clothes.

Soldiers have thick clothes as uniforms as they live and work in rough conditions.

कक्षा -दूसरी विषय -हिंदी

पाठ -5 (चिड़ियाघर की सैर)

शब्द -अर्थ
