Maths H.W

Read the concept & content (area & perimeter). Also solve Q 19 to 23.

Also there will be a test on Monday from this chapter so also prepare for test.

19. Find the area of rectangular region 6.5 metres long and 4.6 metres broad.
20. Find the circumference and area of a circle of 28 cm. diameter.
21. Which of the two speeds is greater 20 m. per second or 90 km. per hour?
22. A hall is 16 metres long 14 metres broad and 10 m. high. Each wall has a door 5 metres long and 4 metres wide and a window 3 metres long and 2 metres wide. Find the area of the four walls of the room.
23. Length of a room is twice its width. If length of the room is 40 metres, find its area.
24. Find the cost of carpet 28 m. long, 22 m wide, at Rs. 4.35 per square metres.

Subject: English

To read and learn the rule of past perfect tense.

We use the past perfect tense to:

1. denote an action which had been completed before another action had begun.

Examples:

(i) The rain had stopped, when we entered the room.

(ii) The train had left, when I reached the station.

2. express an unfulfilled wish and condition in the past.

Example: I wish I had accepted the offer.

3. express an unfulfilled condition in the past.

Example: If you had worked hard, you would have passed.

In Negative sentences, 'not' is placed between the helping verb and the principal verb.

Example: I had not spoken the truth.

4. denote an action which contains the words *already, before, till, since, etc.*

Examples: He had already heard the news.

I had not seen this film before.

5. When from a point of time in the past, we look backward at an event that happened earlier in the past.

Subject: Hindi
