**#Learn and write in notebook.**

Read and learn underlined hard words.

### A CLEAN HOUSE

We should keep the house spick and span. A dirty house may have flies, mosquitoes and rats. They can make us sick. Windows let in fresh air and sunlight. Thus an ideal house should have enough doors and windows. Doors and windows should have screen door.

A clean house is a healthy house.

A clean house

A dirty house

### Fact File

An igloo is made up of snow. Thus a very cold region is needed where one can get solid snow.

The only items that are required to build an igloo are: a spade, a saw, solid snow and shovels.

### Quickies

**Nomads** : People travelling from one place to another

**Caravan** : A house on wheels

**Canvas** : A strong cloth used to make tents and sails

**Log huts** : Huts made up of wood

**Igloo** : A dome-shaped house made of ice and snow

**Stilts** : Each of a set of posts supporting a building

### Let us Revise

- We all live in the house. The house protects us from heat, cold, rain and storm.
- It also protects us from thieves and wild animals.
- There are two types of houses—permanent houses and temporary houses.
- Permanent houses are made up of stone, brick, sand, cement, steel, glass and wood.
- Temporary houses are made with mud, straw or wood.
- A clean house is a healthy house.
