Lesson-1 (Knowing Myself)

When I got up in the morning I was shocked! I told my mother about the conversation between the healthy tooth and the decayed tooth in my dream.

She said, "Our body is made up of different parts. Each part has an important job to do. It also works with the other parts to keep us healthy!"

Sometimes a child has a body part that does not function properly. Some children cannot talk or hear. Some children have weak eyes, so they have to wear spectacles (glasses).

Do you know?

When I talk about myself I use words like I, me, my, mine, myself. But other people call me by my name!
